

Maverick Waltz Contra

Calvin Campbell

This is a very pretty and fun-to-dance waltz routine done in a double circle. The instructions can be downloaded free from the [Lloyd Shaw Foundation](#) website by [clicking here](#). These instructions have couples on the inside circle facing out and couples on the outside circle facing in.

The instructions are accurate in the description of the dance movements. We have changed one thing in the [video](#) to keep partners together. When the foursomes are complete around the entire circle, have the **Two Ladies Chain** in each foursome. Each pair are now facing their original partner. Then follow the instructions as written. At the end of each time through the routine, each couple should be facing their original partner to start the next sequence.

The Colorado Dancers, shown in the [YouTube video](#), also use a different version of the music than is presently sold by the Lloyd Shaw Foundation. [Click Here](#). The music we use is the original music played by Fred Bergen. If you prefer to use the original version a copy has been stored on the Internet Archive website ([Click Here](#)).

The dancers are the Colorado Dancers from the Denver area. The prompter is Bob Riggs.
